INVITATION FOR STUDENTS, PRACTITIONERS & ACADEMICS

- What are the international community's obligations under the Paris Agreement and how are they being implemented?
- What innovative laws and governance practices can incentivize climate change-related investments nationally and internationally?
- What legal and institutional reforms can protect the world's oceans and contribute to global responses to climate change?

On these crucial challenges and more, join international legal experts in this special event!

Students, practitioners & academics are welcome – please register here:
